

Winter 2007
Survey of Organic Chemistry - CHEM 520
111 Royal Hall
MWF 1:00 - 1:50 PM

Instructor: Professor Kathleen V. Kilway
Office: Flarsheim Hall, Room 510H
Phone: (816) 235-2289
E-mail: kilwayk@umkc.edu

Webpage: The chapter outlines, last year's exams, homework assignments, the most recent syllabus, and any other general announcements for CHEM 321 on the web <http://cas.umkc.edu/chem/Faculty/courses/Kilway/2002ochem.htm>.

Prerequisite: A grade of a C- or better in CHEM 211 (with lab) and 212R (with lab), CHEM 321 (with lab) or the equivalent courses is required for this course. If you have taken CHEM 320/320L, please come and talk with me ASAP. There is also a corequisite of CHEM 322L.

Text: The required text is "Organic Chemistry" Maitland Jones, Jr., 3rd ed., W.W. Norton & Company, New York, 2005. The "Study Guide / Solutions Manual" and a molecular model kit are also highly recommended. There are used books and solutions manuals. Also available this Fall is an Organic Chem Book package. It contains the text package, which includes the solutions manual and a CD ROM of reaction mechanisms.

Objectives of this Course: This course is a continuation of Organic Chemistry I (CHEM 321) and a thorough understanding of Chapters 1 - 10 is essential for the successful completion of Organic Chemistry II. The objective of this course is to explore further the field of organic chemistry including: physical techniques, complex reactions and mechanistic methods.

Class Attendance: Attendance at lecture will be recorded on a regular basis, and it is very important for a thorough understanding of the material. It is also very important in cases such as changes to the schedule, class assignments, and quizzes. It is the responsibility of the student **not the instructor** to obtain the material covered in class.

Exams: There will be a "placement" exam given during the first and last week of classes for no credit. It will not be used as part of the grade for the course just for diagnostic information but each CHEM 520 student must take these two exams.

Three regular exams will be given during the course of the semester, each covering 2-4 chapters. You will be given approximately 80 minutes to take the exam (RH 111 from 1-2:20 PM and RH 214/215 from 12:30-1:50 PM). If you are unable to make an exam for any reason, this one will be the exam that will be replaced with the final. Makeup exams will be given only in extreme circumstances **ONLY IF PRIOR** approval is granted by the instructor. These makeup exams will be given **before not after** the regular scheduled exams.

There will be homework assignments (5 points per chapter) totaling 50 points. The homework is due by 5 PM (either in class or 510H FH) the day after we finish a chapter. There will be a one-point penalty on the homework for every day late. It is strongly advised that the student completes all homework problems in the textbook in order to understand the material. The exam questions are sometimes taken from the homework assignments. No student collaboration is allowed for CHEM 520.

A comprehensive final exam will be administered on the day specified in the class schedule (***WED. MAY 2 FROM 1-3 PM***). Each regular exam will count 100 points, homework assignments (total 50 points), and the final exam as 200 points, for a total of 550 points. If you perform better on the final than one of the other exams, you can replace that score with your average score on the final.

Grading: No exams will be dropped but if the final average is higher than one of the tests, the final will replace that exam. The grade cutoffs will not be raised. No other "extra" credit nor incompletes will be given after the final has been given. Grades will not be curved but computed numerically and assigned using the following scale:

90-100 = A; 80-89 = B; 70-79 = C; 60-69 = D; 0-59 = F

Office Hours: Office hours will be announced in class. There will be problem sessions with the instructor throughout the semester. Attendance is not required. Normally, walk-ins outside of office hours will not be accepted, but please come and see the instructor if there is a problem. There are two supplemental instructors assigned to this class [Hillary Lungren (HKL6X2@umkc.edu) and Amy Bagley (ASF5F9@umkc.edu)]. Their sessions and office hours will be announced the second week of class. Names of tutors are available at both the Chemistry and the Pharmacy Departmental Offices. We will also have a peer-tutoring program this semester. These times and room assignments may change throughout the semester so refer to the webpage for updated information.

Cheating: Academic dishonesty will not be tolerated in this course. Please read the appropriate section in your student manuals. If caught, the student will receive a failed grade for the course. The College of Arts and Sciences has asked instructors to include definitions of plagiarism. Please see the definitions below for any questions.

Grievance Procedures and Conduct of the Class: Any grievance about grading and/or conduct of the class should be taken up first with the Instructor. Further comments and complaints should be addressed to the Chemistry Department Chair only after the Instructor has been consulted. This class will be conducted in compliance with UMKC's Affirmative Action/Equal Opportunity and Sexual Harassment Policies (see UMKC General Catalog).

This syllabus is viewed as a contract between the professor and student. By staying in this class, the student is agreeing to the syllabus in its entirety.

Homework Assignments in order of appearance:

Chapter 11: 7,9,12,15,17,18,20,21,25,34,35.

Academic calendar: www.umkc.edu/registrar/acal.asp. All academic deadlines are strictly adhered to in this class. Any graduate student withdrawing by the appropriate graduate deadline will earn a W not a WF.

Definitions:

1) UMKC General catalog: "The term plagiarism includes, but is not limited to: (i) use by paraphrase or direct quotation of the published or unpublished work of another person without fully and properly crediting the author with footnotes, citations or bibliographical reference; (ii) unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or (iii) unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators."

2) Department of English" "...You plagiarize any time you use the words or thoughts of another person in your work without attribution. This includes copying passages, phrases, and significant terms without giving the proper citation. It also includes close paraphrasing. You can even plagiarize an idea if you try to pass it off as your own. ..."

3) High-school/college Dual Credit program (English 110) [modified]: "Plagiarism is the use of another person's writing or ideas without giving that person credit by means of source citation and (in some cases) quotation marks. All source material, whether presented through direct quotations or through summary, paraphrase, or precise, must have an adequate source citation. "...plagiarism may ... involve the use of either the actual wording of the source material or the ideas presented there."
